

I am writing in hopes that I will still be able to listen to my favorite radio station, Air 1, which is 88.1 here in Savannah, GA. I attend a rather large Christian Church here in Savannah and thousands here listen to this station. It is uplifting when we are down and gives us hope for a good day every morning. My children and friends children love the station and it is the best alternative to that hard metal rock stuff with bad language which encourages bad behavior in our children. If Air 1 were replaced, we would have nothing to help instill the good Christian values in our children on the radio that would be of interest to them. Yes, kids attend church and Sunday school, but Air 1 provides a fun and energetic alternative of music for them and in addition we are all getting a good lesson on life and the Lords' word. I do hope you will take this into consideration before replacing this station in our city. Much thanks and may God bless you!
